

CASE IN THE BOX - ASPIRAČNÍ TROMBEKTOMIE VYSOKÉ ŽILNÍ TROMBÓZY

Tomáš Hauer

Sjezd ČKS, Brno, 9.5.2026

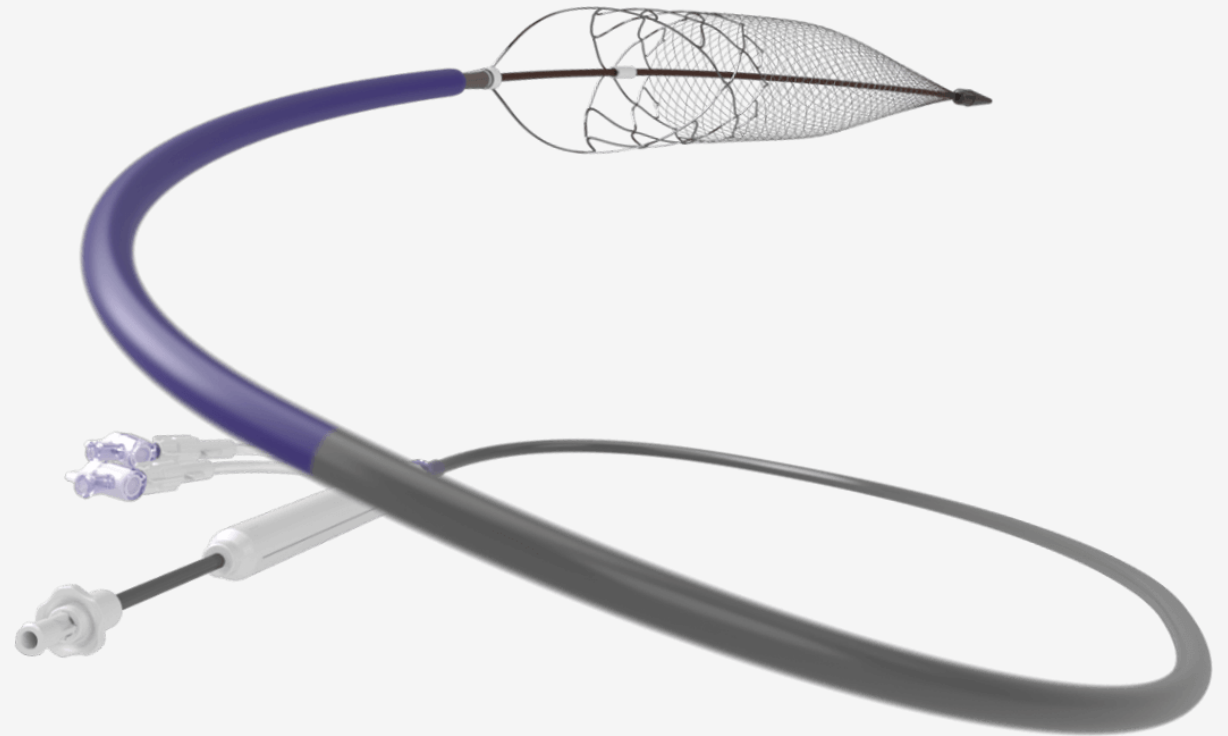

Z čeho vycházíme

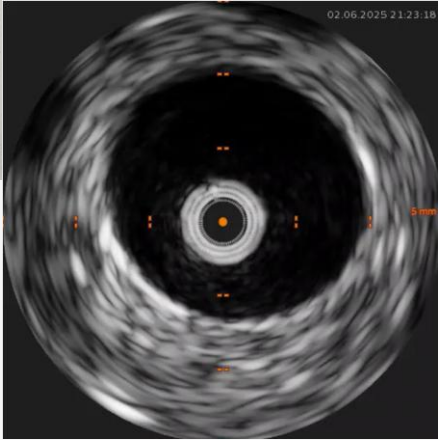

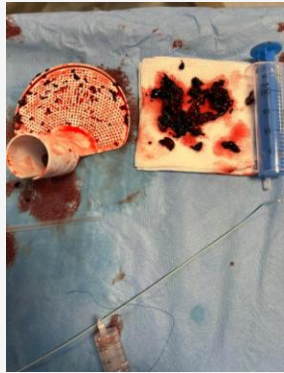

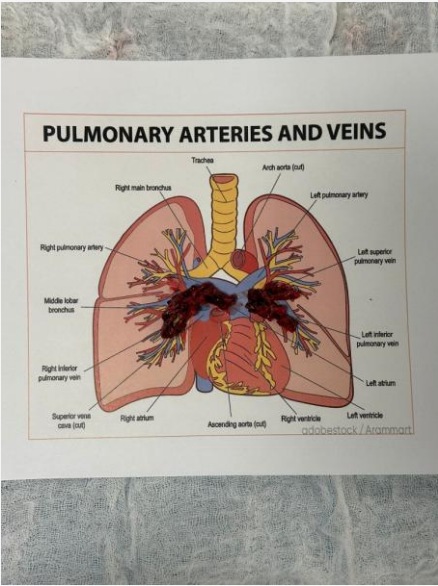

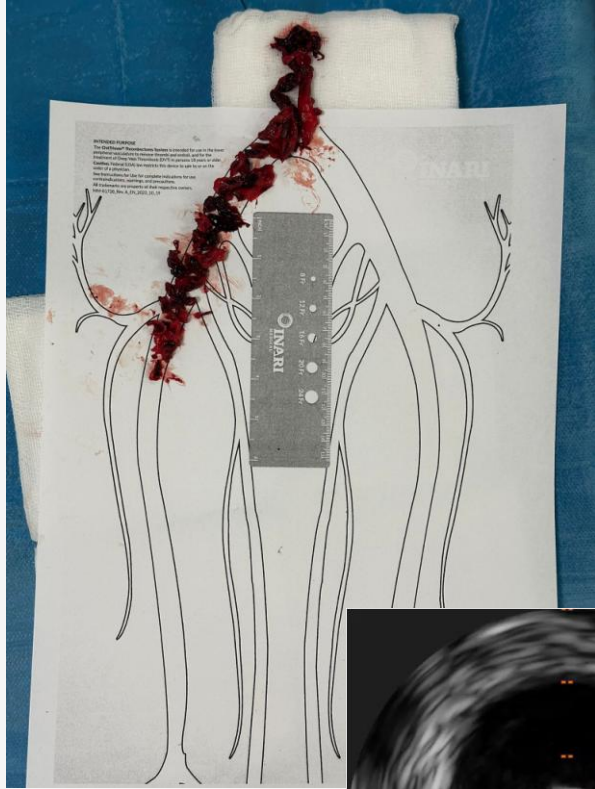

Existují pacienti, kteří mají masivní trombózu ileokaválního segmentu trombózu a nemohou být léčeni konzervativně

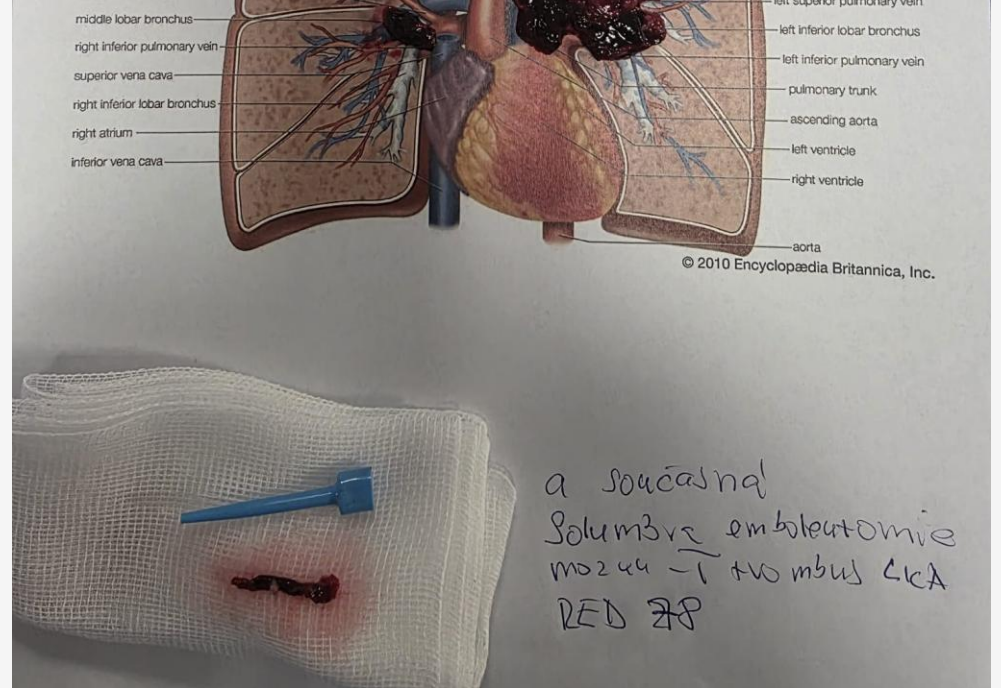

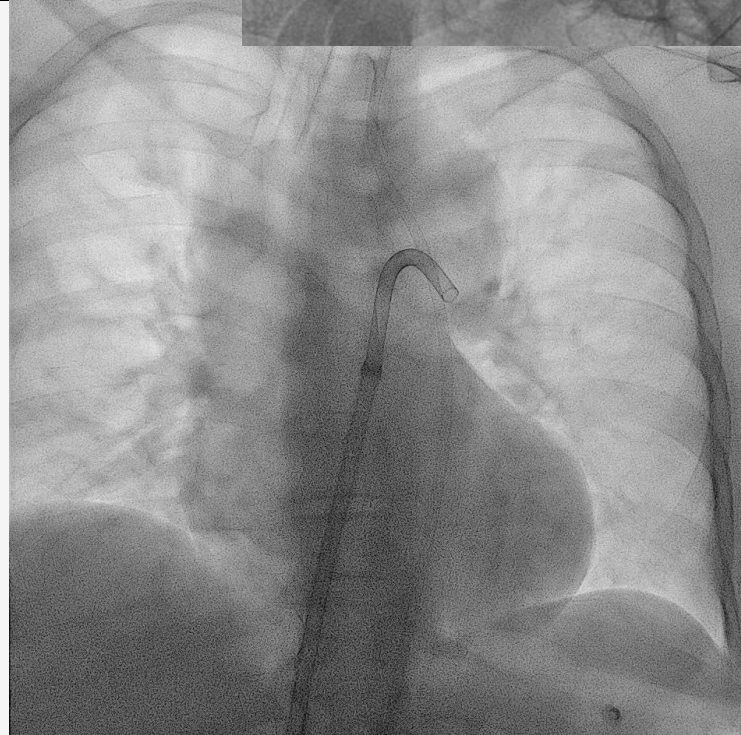

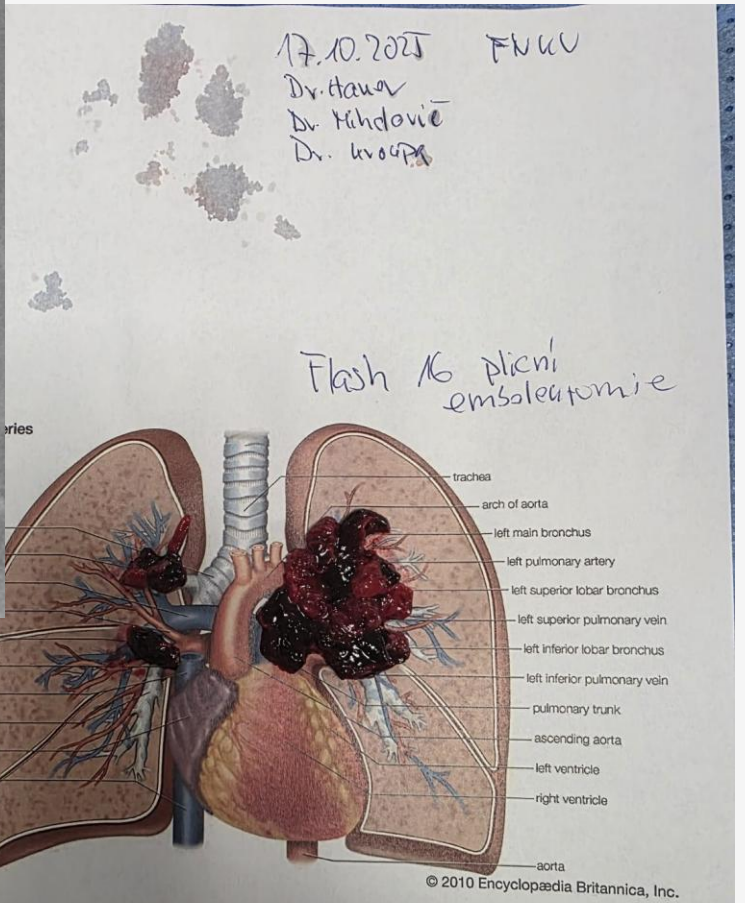

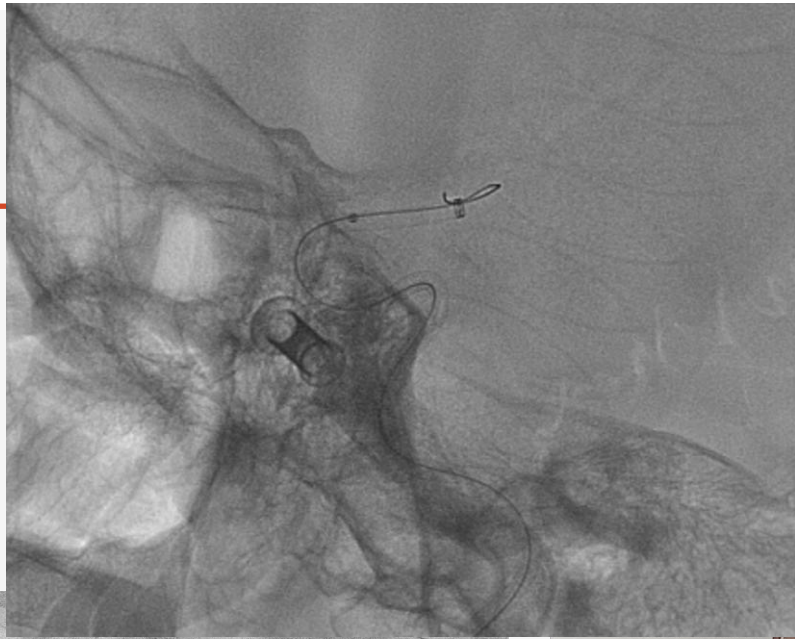

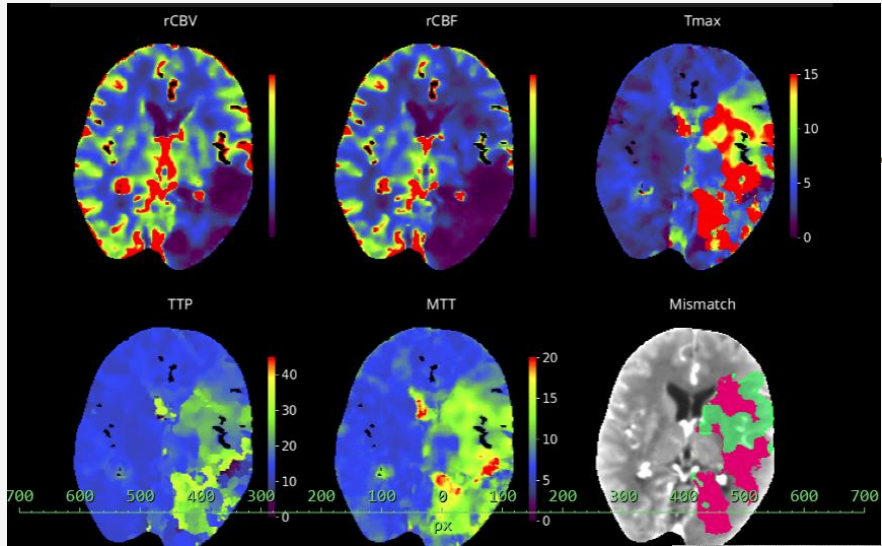

Existují pacienti, kteří mají masivní trombózu ileokaválního segmentu trombózu a nemohou být léčeni katetrovou trombolýzou

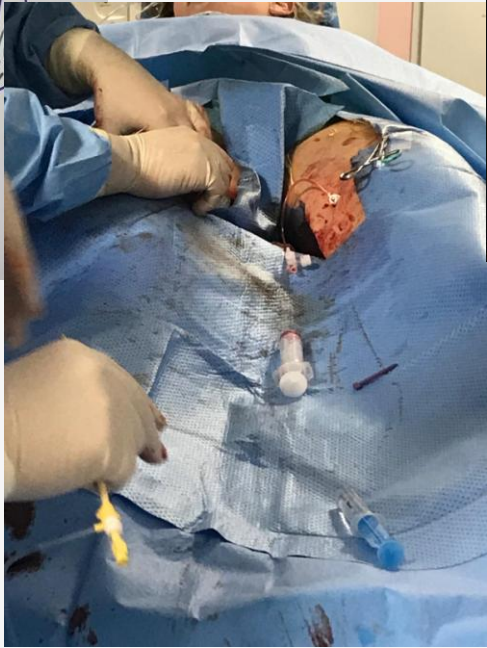

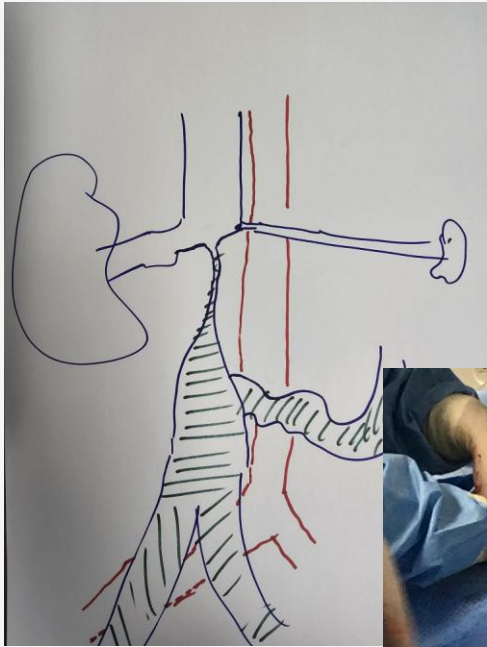

Existují ještě pacienti, kteří mají být léčeni katetrovou trombolýzou? Nebude tato modalita metodou druhé volby u pacientů nevhodných k large-bore katetrům?

Změna paradigmatu? ANO!
